

optical sight LS-6x42

hunting rifle scope

Those optical sights are rigidly designed and reliable devices what guarantee long term usage in all environmental circumstances.

Due to advanced design and first class optical elements as well due to antireflection coating on optical components, image is clear and well illuminated enabling in such a way optimal observation in condition of insufficient luminance.

Reticle is movable according to direction and height, providing a stability of position taken during rectification.

<i>Magnification</i>	6x
<i>FOV (field of view)</i>	4° (7m/100m)
<i>Objective diameter</i>	42 mm
<i>Eye pupil diameter</i>	7 mm
<i>Eye relief</i>	77 mm
<i>Middle tube diameter</i>	26 mm
<i>Sight line correction per click at 100 m</i>	5 mm
<i>Length</i>	338 mm
<i>Weight</i>	490 g
